

M Y S T I C A L H A V E N

Mystical Haven from Alchymi is inspired by the striking hues of nature. Be it the textures of a clear white sky or the dusky feel of terrains in hues of black, the white and black marble textures have been coalesced with ceramics in a manner that gives your bathroom a whole new character, creating a haven that colors your spirit. Curated by ManishMalhotra in the Hindware Design Studio, its smooth contours complement its texture, to allow yourself to one of the most serene experiences with Alchymi.

Mystical Haven has subtle marble textures of black and white combined with ceramics, which are inspired from the vivid hues of nature.
